## FROM OUR CLIENTS

*AWESOME!! Everyone was extremely excited to have such a fun place for this year's celebration. A total success!! Thank you from all of us at Source Refrigeration!*

**Debbie N.**  
**Source Refrigeration**

*I would give this place 10 stars if I could (but 5 stars is the highest allowed)! What AN AMAZING experience they provided for our company event and it was just pure FUN, FUN, FUN! We were able to reserve the location before they opened and had the whole track to ourselves. Everyone has been working so hard in this summer heat, we thought it would be a great opportunity to connect outside of work (BEFORE work) and blow off a little steam. The people at Autobahn made everything super easy. They also included lots of little perks we had no idea were included. They took photos of our time there (and sent them to us), had trophies and medallions for awards for the fastest times and team, podium pictures and a really thoughtful and nice touch of a tire with all of our signatures on it with our company name. They had no problem with allowing us to cater breakfast for our event and even helped us set up in a private room.*

## TEAM BUILDING OPTIONS

Competition builds character, but it can be hard to draw the line. At Autobahn, we believe racing is the ultimate way to let loose, have fun and build lasting memories along the way. Below are some popular racing formats that are sure to bring your group together.

### **BLINDFOLD CHALLENGE**

Communication is key here, as the driver is blindfolded and given his or her instructions by other group members seated in the vehicle. They attempt to guide the driver around a series of obstacles as fast as possible. Blindfold driving always raises a laugh and can be run alongside other activities.

### **PIT CREW CHALLENGE**

Teams compete against each other for time. Each team completes a series of pit stops for tires and fuel. Penalties are assessed for any violations (i.e., loose wheels) found by the officials. Each time a team completes a pit stop they regroup and work on strategy. The team with the fastest final time after penalties wins.
